INFOSOFT IT SOLUTIONS

Training | Projects | Placements

Revathi Apartments, Ameerpet, 1st Floor, Opposite Annapurna Block, Infosoft It solutions, Software Training & Development Institute, **+91 - 9059683947 | +91 - 9182540872**

IBM MDM Course

MDM and the Enterprise

- Physical, Virtual and Hybrid Hubs
- Working with Physical Hub
- Working with Virtual Hub
- Working with Hybrid Hub

Architecture

- Big Picture
- How InfoSphere MDM Works
- Architecture Overview

MDM Physical Model

- Party Domain
- Account Domain
- Product Domain
- Metadata
- Common Domain

MDM Virtual Model

- Member Tables
- Dictionary Tables

- Entity and Relationship Tables
- Audit Tables

  How InfoSphere MDM services are Invoked

- InfoSphere MDM Consumers
- How Services are invoked
- How Services are Handled

  How Services are implemented

- Handing Physical Hub Services
- Handing Virtual Hub Services

  Linking and Duplicates

- Probabalistic Matching Engine
- Algorithms
- Bucketing
- Standardization
- Comparison Functions
- Weights
- Physical Hub Suspect Processing
- Virtual Hub Linking

  How Services are Extended (Physical Hub)

- Types of Extensions
- Data Extension
- Data Additions
- Specs
- Behavior Extensions
- Composite Services

How Services are Configured (Virtual)

- Data Model Customizations
- Algorithms
- Handlers
- Events
- Composite Views

Common Services

- External Rules
- Validation
- Rules of Visibility
- Configuration
- Standardization
- Logging and Servicibility
- Multi-Timezone
- Search Framework

Integration

- Information Server
- BPM
- Identity Insight
